# About this document

This document provides information about the known issues and limitations, and the defects fixed in SASVA Release Management 2.1.1.

## Known limitations

This section lists the known limitations in Release Management 2.1.1.

- \\ In the **Tree** view, the descriptions of Epic, Story, or Task do not load on the user interface
- \\ After you add a new task, its content does not appear uniformly in the **Detail** view

## Fixed defects

This section lists the defects fixed in Release Management 2.1.1.

1. Defect: The UI labels for **Add Bulk Users** and **Add User** are incorrect.  
  
Cause: The text on labels were inconsistent.  
  
Solution: Updated labels for clarity and consistency
2. Defect: After rebuilding a project, the release plan strategy options are not reset.  
  
Cause: The default reset logic was missing.  
  
Solution: Added logic to restore the default values on rebuild
3. Defect: After a release is created, the status of an issue that was assigned to someone shows **Pending**.  
  
Cause: The updated status was not getting triggered.  
  
Solution: Updated the code to reflect the user assignment status correctly
4. Defect: While editing, duplicate Git and Jira connector names are allowed  
  
Cause: A duplicate name validation was missing.  
  
Solution: Added validation to prevent duplicate connector names

5. Defect: The count of user stories is updated incorrectly after the Jira sync.  
Cause: After every sync, the number of user stories kept getting incremented.  
Solution: Fixed the sync logic to maintain accurate story count
6. Defect: While assigning a user to a Story, a runtime error occurs  
Cause: There was an unhandled exception in assignment logic.  
Solution: Added an exception to handle and prevent runtime errors
7. Defect: The **Category** tag is not visible on expanding a story after a release is created.  
Cause: UI rendering issue  
Solution: Updated the UI to ensure tag visibility
8. Defect: Text is missing under the **Search** box on the **Users** page  
Cause: Improper UI element rendering  
Solution: Fixed the UI to display the missing text
9. Defect: Error messages are unclear and difficult to read  
Cause: Background styling affected message visibility  
Solution: Updated the UI background for better legibility
10. Defect: Able to submit a Story without adding any records  
Cause: A workflow validation was missing.  
Solution: Updated the submission logic to enforce required entries
11. Defect: Misalignment of the header menu  
Cause: Misaligned menus  
Solution: Corrected header layout
12. Defect: Unclear error message when editing a user  
Cause: The message was unclear.  
Solution: Revised the error message for clarity and consistency

### 13. Defect: 500 Internal Server Error when downloading test case report

Cause: Connection timeout due to network restrictions

Solution: Whitelisted the IP

### 14. Defect: Architecture and Design report images do not open

Cause: The file format was not supported.

Solution: Allowed image viewing

### 15. Defect: 500 Error when creating a release with an existing name

Cause: A duplicate name validation was missing.

Solution: Added clear error messages for validation issues
